With iPad Pro, you get what you need from a computer, along with many incredible things you'd never expect from one. For starters, it does what a computer does, but works just like your iPhone, so it's familiar to use. With the A12X Bionic chip, iPad Pro performs faster than most PC laptops and easily runs pro apps. It can be your notepad, canvas, scanner, and the perfect device for augmented reality (AR). It has the apps you expect on a computer, plus a million designed just for iPad. And iPadOS unlocks a whole new world of capability. These are just a few reasons why your next computer might be an iPad Pro.

With a thin and light design, iPad Air<sup>2</sup> is ready for any task. Its A12 Bionic chip with Neural Engine enables a whole new level of power and intelligence. A beautiful 10.5-inch Retina display with True Tone provides easier viewing in all kinds of lighting environments. And with ultrafast Wi-Fi and Gigabit-class LTE<sup>1</sup> and support for Apple Pencil and the Smart Keyboard,<sup>2</sup> there's never been a better time to upgrade to a new iPad Air.
